

Dock Line

Soft nylon/polyester double braid for mooring applications.

The nylon core provides the necessary stretch and energy absorption for mooring vessels while the polyester cover protects the rope from abrasion. This rope is soft, easy to work with and spliceable.

Diameter

10 - 36 mm (Larger Diameters available on request)

Colour: Black, Navy, White

Application

- Mooring lines
- Fender lines
- Painter lines

Features

- Durable
- Excellent stretch recovery
- Easy to handle
- Spliceable
- Easy stowing

Lengths

220m Reels

Custom lengths available

Options

- Spliced Eyes
- Custom colours

Technical

Core: Nylon

Cover: HT Polyester

Construction: Double Braid

Diameter (mm)	Kg / Reel	Linear Break Load (Kg)
