

# Rescue Rope

The Southern Ropes Rescue Rope is a lightweight, high-visibility floating line designed for rapid deployment in emergency situations. Its low weight and excellent handling make it easy to throw, retrieve, and secure, even in challenging conditions. Ideal for use with Dan buoys, lifebuoys, and painter lines, this rope is a reliable choice for water-based rescue operations where visibility and buoyancy are critical.

## FEATURES

- Good visibility
- Lightweight
- Easy to handle
- Soft in hand
- Floating line

Diameter (mm)	Break Load (Kg)
6	395
