

# Tiger Rope

3-Strand Polysteel® with two yellow strands and one black strand.

## FEATURES

- Excellent shape retention
- Dry & Wet conditions - identical strengths
- Good abrasion resistance
- No Water Absorption
- Floating rope
- Chemical Resistance
- Excellent Acid Resistance

## TECHNICAL

- Material: Polysteel®
- Construction: 3-Strand
- Specific Gravity: 0.91
- Melting Point: 165°C

Diameter (mm)	Kg / Coil	Break Load (Kg)
8	7.0	1 345
10	10.0	2 000
12	14.5	2 840
14	20.0	3 905
16	25.5	4 900
18	33.0	5 500
20	40.0	7 520
22	49.0	8 450
24	57.0	10 200

## APPLICATION

- Buoy Line
- Control Ropes
- Ducting Draw Cords
- General Industrial Use
- General Marine Use
