

RESPONSE ECO-LSK ROPE (RS LSK11ECO)

COST EFFECTIVE CE CERTIFIED ROPE FOR ROPE ACCESS & INDUSTRIAL SAFETY

The **Response ECO-LSK** is Southern Ropes affordable, professional grade kernmantle rope designed for reliable performance in industrial access, rescue, and safety operations. This 11mm rope is CE certified to EN 1891 Type A, offering the perfect balance of strength, low stretch, and durability at a budget friendly price point without compromising on safety.

CONSTRUCTION

- ◆ **Cover:** High Tenacity Polyester
- ◆ **Core:** Braided Nylon
- ◆ **Construction:** Braid on Braid for splicing and knot retention

KEY BENEFITS & FEATURES

- ◆ **CE Certified** to EN 1891 (Type A)
- ◆ **Low Stretch** for stable descents and work positioning
- ◆ **Abrasion Resistant Sheath** handles rugged environments with ease
- ◆ **Strong & Affordable:** High break load performance at a cost-effective price
- ◆ **Tested for Safety:** >5 drop dynamic performance & 5.1 kN fall arrest peak
- ◆ **Trusted Everyday Rope** for entry level and intermediate access gear setups

IDEAL APPLICATIONS

- ◆ Rope access & work positioning
- ◆ Static descent systems
- ◆ Construction & geotechnical operations
- ◆ Safety lines, belay lines, and emergency rescue
- ◆ Infrastructure maintenance & confined space entry

AVAILABLE COLOURS & LENGTHS

◆ Colours:

White with
Black Fleck

- ◆ **Standard Lengths:** 100m, 200m and 1000m reels (other lengths on request)

Specification	11 mm
Rope Classification	Type A
Weight per metre	85 g/m
Elongation (%)	3.1%
Fall Arrest Peak	5.1 kN
Drop Test Performance	>5 drops
Shrinkage (%)	2.4%
Break Load (no knots)	2990 kg
Break Load (With Knots)	2100 kg
CE Certification	EN 1891
